The “Biomechanics 2016” conference will address the following themes:

- Theory of Biomechanics
- Engineering Biomechanics
- Musculoskeletal Biomechanics
- Sport Biomechanics
- Biomechanics in Ergonomics
- Biomechanics in Rehabilitation
- Occupational and Impact Injury Biomechanics
- Clinical Biomechanics
- Orthopaedic Biomechanics
- Computational Methods in Biomechanics
- Motor Control
- Biometarials
- Tissue, Cellular and Molecular Mechanics
- Miscellaneous

Conferences about Biomechanics have been held in Poland on a regular basis since 1981. For several years now the “BIOMECHANICS” conferences have been held under the auspices of the PSB in various Polish cities. The main aim of the conference is to provide opportunity for participants coming from all corners of the world to share and exchange ideas and experiences relating to biomechanics.

The conference will take place from 5th to 7th September 2016 and will be held in Biała Podlaska on the premises of the Józef Piłsudski University of Physical Education. The campus at Biała Podlaska boasts excellent conference, accommodation and leisure facilities.

Further information about the conference can be found on the website [www.biomechanics2016.pl](http://www.biomechanics2016.pl)

We look forward to welcoming you in Biała Podlaska in September 2016.

Andrzej Wit and Adam Czaplicki
